**Re: Request for Information for the Stickney Avenue  
Landfill and Tyler Street Dump Sites**

Dear Ms. Adams:

This letter is in response to the U.S. Environmental Protection Agency's August 12, 1993 Request for Information to the Sherwin-Williams address at 1255 Osage Avenue, Maumee, Ohio for the above captioned matter. Sherwin-Williams conducted a diligent search for information to determine if the store had any relationship with the sites during the requested time period. Pursuant to my correspondence of September 15, 1993 to you, I understand this response to be timely submitted. Without waiving any rights, privileges or objections, Sherwin-Williams answers the request for information as follows.

1. The following persons were consulted in the preparation of the information requests.

Maumee, Ohio

(E) Clyde Jenkins, Manager  
Sherwin-Williams Store  
3062 Monroe Street  
Toledo, Ohio

2. Sherwin-Williams has not identified any documents which show that the Sherwin-Williams store sent any waste material or hazardous substance to the sites.

3. Sherwin-Williams has not identified any persons who may be able to provide a more detailed and complete response to any information request or who may be able to provide responsive documents.

4. The Sherwin-Williams store at 1255 Osage Avenue has an EPA Identification Number of OHD986976645.

5. Sherwin-Williams has not identified any information regarding acts or omissions of any such persons that may have caused a release of hazardous substances at the sites.

6. Sherwin-Williams has not identified any information that it sent any type of material to the sites for the time period being investigated.

7. Sherwin-Williams understands this question to request information on whether the Sherwin-Williams store generated hazardous substances which were sent to the site. Sherwin-Williams has not identified any information that it sent any type of waste or hazardous substances to the sites.

a) Sherwin-Williams has not identified any person who arranged for the disposal of hazardous substances at either site during the time period being investigated.
